DETAILED ACTION

Response to Amendment

Claims 54-96 have been added and claims 1-53 canceled. Hence, claims 54-96 are pending in the application. The Restriction Requirement of the previous Office Action dated 9-23-04 has been withdrawn due to the cancellation of the claims 1-53 and the newly added claims 54-96. A new Restriction Requirement is entered below.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 54-74 and 75-96, drawn to ink composition, classified in class 106, subclass 31.27.
- II. Claims 68, 69, 90 and 91 and 86-88, drawn to recording method, classified in class 427, subclass 466+.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the product can be used with a materially different process such as a ballpoint pen, textile padding and letterpress.

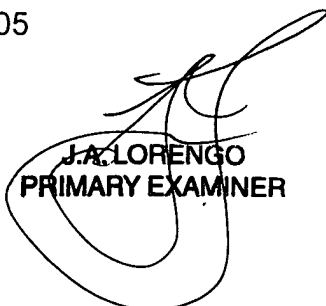

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Veronica F. Faison whose telephone number is 571-272-1366. The examiner can normally be reached on Monday-Thursday and alternate Fridays 8 am to 5 pm.
